## GROUP STRUCTURE

Eurospan Holdings Berhad was incorporated in Malaysia on 19 July 1995 under the Companies Act 1965 as a public limited company. It has been listed on the Main Market of Bursa Malaysia Securities Berhad since 10 July 2000. Bhd.

# CHAIRMAN'S MESSAGE

On behalf of the Board of Directors, this is the Annual Report and Accounts for Eurospan Holdings Berhad and its subsidiaries ("the Group") for the financial year ended 31 May 2010.

The financial year reviewed here was a challenging one in light of the global economic and financial crisis.

## GROUP RESULTS

The recent global economic and financial crisis has significantly given an adverse impact on the business confidence and household sentiments. The global slowdown has in turn affected the result of the Group this year. The Group managed to achieve commendable revenue of RM62.13 million as compared to previous year's recorded revenue of RM62.80 million.

The Group's profit before tax for the financial year ended 31 May 2010 was RM204,364 as compared to RM3,936,780 in the previous year. The decrease was mainly due to worldwide economic meltdown, the overall increase in the raw material cost and operating expenses and continued appreciation of the Ringgit Malaysia against the US Dollar.

## SHAREHOLDERS DIVIDEND

The Board is pleased to recommend a final single tier dividend of 8 sen per ordinary share for the financial year ended 31 May 2010 for the shareholders' approval at the forthcoming Annual General Meeting. This proposed dividend if payable in respect of all outstanding ordinary shares in issue as at 31 May 2010 will involve a cash payment of RM3,237,000.

## FUTURE PROSPECTS

The global economy has been showing progressively strong signs of recovery. It is against this economic backdrop that the Group expects to be profitable for the financial year ending 31 May 2011 barring any unforeseen circumstances. The main downside at this point in time is the continued strengthening of the Ringgit Malaysia against the US Dollar will have a negative impact to the Group's earnings as the Group's revenue is 100% from exports sales and denominated in the USD currency.

Going forward, we on our part will continue to be vigilant of the market changes and refine our business strategies and incorporate measures that will allow us to focus on our core strengths. Every effort would be made to mitigate risks and further increase operational efficiency in positioning our core business for growth opportunities while creating and enhancing shareholder's value.

We look forward to continuous support from all our stakeholders as we pursue our course in turning this Group back into better profitability. With your support, the Group will overcome this difficult period and post an improved performance in the next financial year.

## ACKNOWLEDGEMENT AND APPRECIATION

On behalf of my colleagues on the Board, I wish to express my sincere appreciation to all of our employees who has remained loyal and dedicated to the Group and continue to persevere throughout the year in review. In particular, I would like to extend the Board's appreciation to the Management Team for their dedication and determination to steer the Group out of its financial difficulties.

My deepest appreciation also goes to my fellow Board members who have been instrumental in providing guidance and valuable insights to the Management throughout the year.

To our business associates, partners and shareholders, we sincerely thank you for your unwavering confidence and continued support in seeing us through one of the most challenging period of our business. We have built our business strategies with you in mind and will continue building value for shareholders and customers moving forward.

# CHAIRMAN'S MESSAGE [CONTINUED]

## **ACKNOWLEDGEMENT AND APPRECIATION (Continued)**

I am confident that with your continuing support in the exciting times ahead, we shall succeed in our concerted effort to return the Group to better profit and grow ourselves to be the leading furniture manufacturer.

During the course of a meeting, the Board deliberated and considered on matters including the Group's financial performance, business review, operating performance to-date against the annual budget and the business strategies. The Audit Committee also reports the outcome of committee meetings to the Board and such reports are incorporated as part of the minutes of the Board meetings.

Where a potential conflict of interest may arise, it is mandatory practice for the Director concerned to declare his interest and abstain from the decision making process.

### 2.0 Board Balance and Independence

Although the positions of Chairman and Managing Director are held by the same Director, the Board is of the opinion that no one individual has unfettered powers of decision as there is a strong independent element within the Board in the form of the two (2) Independent Non-Executive Directors, who provide a check and balance in the Board on decision-making. Moreover, it is the practice of the Chairman to encourage participation by all members during Board meetings.

Thus, the Board does not consider it necessary at this juncture to identify a Senior Independent Non-Executive Director.

## 3.0 Supply of Information

The Chairman ensures that all Directors have full and timely access to information with Board papers distributed in advance of meetings. Every Director has also unhindered access to the advice and services of the Company Secretary. Prior to the meetings of the Board and the Board Committees, Board papers which include the agenda and reports relevant to the issues of the meetings covering the areas of strategic, financial, operational and regulatory compliance matters, were circulated to all the Directors to obtain further explanation, where necessary, in order to be properly briefed before the meeting.

The Directors review and approve all corporate announcements, including the announcement of the quarterly financial reports, prior to releasing them to the Bursa Malaysia Securities Berhad ('Bursa Securities').

## 6.0 Directors' Training

The Board of Directors (“Board”) is committed to maintaining a sound system of internal control throughout the Group, comprising the Company and all its subsidiaries, and is pleased to provide the following statement, which outlines the nature and scope of the internal control of the Group during the year.

## BOARD RESPONSIBILITY

The Board acknowledges its responsibility for the Group’s system of internal control, which includes the establishment of an appropriate control environment and framework as well as reviewing its adequacy and integrity. Because of the limitations that are inherent in any system of internal control, this system is designed to manage, rather than eliminate, the risk of failure to achieve corporate objectives. Accordingly, it can only provide reasonable not absolute assurance against material misstatement, loss, fraud or breaches of laws or regulations. The system of internal control covers, inter-alia, financial, organisational, operational and compliance controls.

The Board is aware of the publication of the “Statement on Internal Control – A guidance to Directors of Public Listed Companies” (The “Internal Control Guidance”), which provides guidance on the process of identifying, evaluating and managing significant risks faced by the Group. The Board has also adopted the Internal Control Guidance in its efforts to ensure the adequacy and integrity of the system of internal control of the Group.

## INTERNAL AUDIT FUNCTION

The Group has in place an internal audit function, which provides the Board with independent assurance it requires regarding the adequacy and integrity of the system of internal control. The internal audit reviews the internal controls for the key activities of the Group’s operations based on the approved annual internal audit plan. The internal audit plan, prepared in accordance with a risk-based approach was essentially drawn up to review the key processes established within the operations of the Group.

For the financial year under review, management has acted upon the recommendations made by the internal audit function, as appropriate, in order to enhance the system of internal control.

## ENTERPRISE RISK MANAGEMENT

The Group has established an enterprise risk management framework to identify, evaluate and manage the significant risks that may adversely affect the achievement of its business objectives.

## OTHER CONTROL PROCESSES

The Board has put in place an organisational structure with defined lines of responsibility and delegation of authority. A hierarchical reporting system has been established which includes inter-alia, the establishment of limits of authority coupled with the issuance of policies on health and safety, training and development, staff performance and serious misconduct. These procedures provide continuous assurance to be given at increasingly higher levels of Management and, finally to the Board. The Group Managing Director also reports to the Board on significant changes in the business and external environment, which affects the operations of the Group at large.

The Group Finance Manager provides the Board with quarterly financial information, including pertinent explanations on the performance of the Group.

## WEAKNESSES IN INTERNAL CONTROLS THAT RESULT IN MATERIAL LOSS

There were no material losses incurred during the current financial year as a result of weaknesses in internal control. The Board, together with Management, continue to take measures to strengthen the control environment.

# STATEMENT ON INTERNAL CONTROL (CONTINUED)

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

## I. BASIS OF PREPARATION (Continued)

### (a) Statement of compliance (Continued)

The initial application of a standard, an amendment or an interpretation, which will be applied prospectively, is not expected to have any financial impacts to the current and prior periods financial statements upon their first adoption.

The impacts and disclosures as required by FRS 108.30(b), Accounting Policies, Changes in Accounting Estimates and Errors, in respect of applying FRS 7 and FRS 139 are not disclosed by virtue of the exemptions given in these respective FRSs.

The impacts of initial application of a standard, an amendment or an interpretation, which will be applied retrospectively, are disclosed below:

#### (i) **FRS 8, Operating Segments**

FRS 8 replaces FRS 114<sub>2004</sub>, Segment Reporting and requires the identification and reporting of operating segments based on internal reports that are regularly reviewed by the chief operating decision maker of the Group in order to allocate resources to the segment and to assess its performance. Currently, the Group presents segment information in respect of its business and geographical segments (see Note 25). The adoption of FRS 8 will not have any significant impact on the financial statements of the Group other than expanded disclosure requirements, if any.

#### (ii) **Improvements to FRSs (2009)**

Improvements to FRSs (2009) contain various amendments that result in accounting changes for presentation, recognition or measurement and disclosure purposes. Amendments that have material impact are:

##### **FRS 117, Leases**

The amendments clarify the classification of lease of land and require entities with existing leases of land and buildings to reassess the classification of land as finance or operating lease. Leasehold land which in substance is a finance lease will be reclassified to property, plant and equipment. The adoption of these amendments will result in a change in accounting policy which will be applied retrospectively in accordance with the transitional provisions. This change in accounting policy will result in reclassification of lease of land amounting to RM316,452 as at 1 June 2010 from prepaid lease payments to property, plant and equipment.

#### (iii) **IC Interpretation 4, Determining whether an Agreement contains a Lease**

IC Interpretation 4 provides guidance for determining whether certain arrangements are, or contain, leases that are required to be accounted for in accordance with FRS 117, Leases. Where an arrangement is within the scope of FRS 117, the Group applies FRS 117 in determining whether the arrangement is a finance or an operating lease.

The adoption of IC Interpretation 4 will result in a change in accounting policy which will be applied retrospectively in accordance with FRS 108, Accounting Policies, Changes in Accounting Estimates and Errors in which certain arrangements are to be accounted for as a finance lease.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

## I. BASIS OF PREPARATION (Continued)

### (a) Statement of compliance (Continued)

#### (iv) *IC Interpretation 10, Interim Financial Reporting and Impairment*

IC Interpretation 10 prohibits the reversal of an impairment loss that has been recognised in an interim period during a financial year in respect of the following:

- (a) goodwill;
- (b) an investment in an equity instrument; or
- (c) a financial asset carried at cost.

In accordance with the transitional provisions, the Group and the Company will apply IC Interpretation 10 to goodwill, investments in equity instruments, and financial assets carried at cost prospectively from the date the Group and the Company first applied the measurement criteria of FRS 136, Impairment of Assets and FRS 139, Financial Instruments : Recognition and Measurement respectively.

### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

### (c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency. All financial information presented is in RM unless otherwise stated.

### (d) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, and have been applied consistently by Group entities, unless otherwise stated.

### (a) Basis of consolidation

#### (i) *Subsidiaries*

Subsidiaries are entities, including unincorporated entities, controlled by the Group. Control exists when the Group has the ability to exercise its power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. Subsidiaries are consolidated using the purchase method of accounting except for Eurospan Furniture Sdn. Bhd. (business combination prior to 1 January 2006) which is accounted for using the pooling-of-interests method of accounting.

Under the purchase method of accounting, the financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (a) Basis of consolidation (Continued)

#### (i) Subsidiaries (Continued)

Under the pooling-of-interests method of accounting, the results of entities or businesses under common control are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established. The assets and liabilities acquired were recognised at the carrying amounts recognised previously in the Group's controlling shareholder's consolidated financial statements. The difference between the cost of acquisition and the nominal value of the shares acquired together with the share premium are taken to merger reserve (or adjusted against any suitable reserve in the case of debit differences). The other components of equity of the acquired entities are added to the same components with Group equity.

Investments in subsidiaries are stated in the Company's balance sheet at cost less any impairment losses, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

#### (ii) Changes in Group composition

Where a subsidiary issues new equity shares to minority interests for cash consideration and the issue price has been established at fair value, the reduction in the Group's interests in the subsidiary is accounted for as a disposal of equity interest with the corresponding gain or loss recognised in the income statements.

When a group purchases a subsidiary's equity shares from minority interests for cash consideration and the purchase price has been established at fair value, the accretion of the Group's interests in the subsidiary is accounted for as a purchase of equity interest for which the purchase method of accounting is applied.

The Group treats all other changes in group composition as equity transactions between the Group and its minority shareholders. Any difference between the Group's share of net assets before and after the change, and any consideration received or paid, is adjusted to or against Group reserves.

#### (iii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

### (b) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of the Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies are translated at exchange rates at the dates of the transactions except for those that are measured at fair value, which are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in the income statements.

### (c) Property, plant and equipment

#### (i) *Recognition and measurement*

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

The cost of property, plant and equipment recognised as a result of a business combination is based on fair value at acquisition date. The fair value of property is the estimated amount for which a property could be exchanged between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The fair value of other items of plant and equipment is based on the quoted market prices for similar items.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within "other operating income" or "other operating expenses" respectively in the income statements.

#### (ii) *Subsequent costs*

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the income statements as incurred.

#### (iii) *Depreciation*

Depreciation is recognised in the income statements on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Freehold land is not depreciated. Property, plant and equipment under construction are not depreciated until the assets are ready for their intended use.

The depreciation rates for the current and comparative periods based on their estimated useful lives are as follows:

Buildings	2%
Plant, machinery and factory equipment	10% and 20%
Furniture, fittings, renovation and office equipment	10%
Motor vehicles	10%

Depreciation methods, useful lives and residual values are reassessed at the balance sheet date.

### (d) Lease assets

#### Operating lease

Leases, where the Group does not assume substantially all the risks and rewards of the ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised on the Group's balance sheet.

Leasehold land that normally has an indefinite economic life and title is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. The payment made on entering into or acquiring a leasehold land is accounted for as prepaid lease payments.

Payments made under operating leases are recognised in the income statements on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

### (e) Goodwill

Goodwill arises on business combinations and is measured at cost less any accumulated impairment losses.

For acquisitions prior to 1 January 2006, goodwill represents the excess of the cost of the acquisition over the Group's interest in the fair values of the net identifiable assets and liabilities.

For business acquisitions beginning from 1 January 2006, goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree.

Any excess of the Group's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in income statements.

### (f) Investments in equity securities

Investments in equity securities are recognised initially at fair value plus attributable transaction costs.

Subsequent to initial recognition:

- Investments in non-current equity securities other than investments in subsidiaries are stated at cost less allowance for diminution in value,
- All current investments are carried at the lower of cost and market value, determined on an individual investment basis by category of investments.

Where in the opinion of the Directors, there is a decline other than temporary in the value of non-current equity securities other than investment in subsidiaries, the allowance for diminution in value is recognised as an expense in the financial year in which the decline is identified.

On disposal of an investment, the difference between net disposal proceeds and its carrying amount is recognised in the income statements.

All investments in equity securities are accounted for using settlement date accounting. Settlement date accounting refers to:

- a) the recognition of an asset on the day it is received by the entity, and
- b) the derecognition on an asset and recognition of any gain or loss on disposal on the date it is delivered.

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (g) Impairment of assets

The carrying amounts of assets except for inventories and financial assets (other than investment in subsidiaries) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill that has indefinite useful life, the recoverable amount is estimated usually at each reporting date.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statements. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (groups of units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to the income statements in the year in which the reversals are recognised.

### (h) Receivables

Receivables are initially recognised at their cost when the contractual right to receive cash or another financial asset from another entity is established.

Subsequent to initial recognition, receivables are stated at cost less allowance for doubtful debts.

Receivables are not held for the purpose of trading.

### (i) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in, first-out principle and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. In the case of work-in-progress and manufactured inventories, cost includes an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

### (j) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks, highly liquid investments and short term funds with maturity of less than three months which have an insignificant risk of changes in value. For the purpose of the cash flow statements, cash and cash equivalents are presented net of bank overdrafts and pledged deposits, if any.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (k) Payables

Payables are measured initially and subsequently at cost. Payables are recognised when there is a contractual obligation to deliver cash or another financial asset to another entity.

### (l) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### (m) Contingent liabilities

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the Company considers these to be insurance arrangements, and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

### (n) Equity instruments

All equity instruments are stated at cost on initial recognition and are not re-measured subsequently.

#### **Issue expenses**

Incremental costs directly attributable to issue of equity instruments are recognised as a deduction from equity.

### (o) Revenue recognition

#### **(i) Goods sold**

Revenue from the sale of goods is measured at fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

#### **(ii) Dividend income**

Dividend income is recognised when the right to receive payment is established.

### (p) Interest income

Interest income is recognised as it accrues, using the effective interest method.

### (q) Employee benefits

#### **(i) Short term employee benefits**

Short term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

The Group's contributions to the statutory pension funds are charged to the income statements in the year to which they relate. Once the contributions have been paid, the Group has no further payment obligations.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (q) Employee benefits (Continued)

#### (ii) *Share-based payment transactions*

The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest.

The fair value of employee share options is measured using a binomial lattice model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

### (r) Tax expense

Tax expense comprises current and deferred tax. Tax expense is recognised in the income statements except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences:

- i) the initial recognition of goodwill,
- ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit (tax loss).

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax liability is recognised for all taxable temporary differences. A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Unutilised reinvestment allowance is treated as tax base of assets and is recognised as a reduction of tax expense as and when it is utilised.

### (s) Earnings per ordinary share

The Group presents basic and diluted earnings per ordinary share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees.

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (t) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

### (u) Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures.

Forward foreign exchange contracts are accounted for on an equivalent basis as the underlying assets, liabilities or net positions. Any profit or loss arising is recognised on the same basis as that arising from the related assets, liabilities or net positions.

### (v) Research and development

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the income statements as an expense as incurred.

Expenditure on development activities, whereby research findings are applied to a plan or design for the production of new or substantially improved products and processes, is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources to complete development.

The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Other development expenditure is recognised in the income statements as an expense as incurred. Capitalised development expenditure is stated at cost less any accumulated amortisation and any accumulated impairment losses.

Business segment information has therefore not been prepared as the Group's revenue, operating profit, assets employed, capital expenditure, depreciation and amortisation and non-cash expenses are mainly confined to one business segment.

### Geographical segments

The business segment is managed in one principal geographical area namely Malaysia.

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers. Segment assets are based on the geographical location of assets.

## 26. FINANCIAL INSTRUMENTS

### Financial risk management and objectives

Exposure to credit, interest rate, currency risk and liquidity risk arises in the normal course of the Group's business. Derivative financial instruments are used to hedge exposure to fluctuations in foreign exchange rates.

### Credit risk

Exposure to credit risk is monitored on an ongoing basis.

The Group and the Company have no significant concentrations of credit risk at the balance sheet date other than amount due from subsidiaries (Note 7). The maximum exposure to credit risk for the Group and for the Company is represented by the carrying amount of each financial asset in the balance sheet.

### Interest rate risk

The Group does not incur any interest bearing debts. Therefore, its exposure to interest rate risk is minimal.

The investments in financial assets are mainly short term in nature and are mostly placed in fixed deposits and short term deposits or occasionally, in short term funds which yield better returns than cash at bank.

### Foreign currency risk

The Group incurs foreign currency risk mainly on sales which are denominated in a currency other than Ringgit Malaysia. The currencies giving rise to this risk are primarily US Dollars ("USD") and Euro Dollars ("Euro").

The Group hedges at least 80 percent of its trade receivables denominated in foreign currency. At any point in time, the Group also hedges 80 percent of their estimated foreign currency exposure in respect of forecast sales over the following six months. Where necessary, the forward exchange contracts are rolled over at maturity at market rates.

### Liquidity risk

The Group manages its liquidity risk by adopting a prudent approach to credit risk and cash flow management. The Group maintains a sufficient level of cash to meet its working capital requirements. It also has banking facilities available for its contingent funding requirement for working capital purposes.

### Effective interest rates and repricing analysis

In respect of interest-earning financial assets, the following table indicates its effective interest rate at the balance sheet date and the periods in which it reprices or matures, whichever is earlier.

### Fair values

#### Recognised financial instruments

The carrying amount of cash and cash equivalents, receivables and payables, approximate fair value due to the relatively short term nature of these financial instruments.

The Company provides financial guarantees to banks for credit facilities extended to certain subsidiaries. The fair value of such financial guarantees is not expected to be material as the probability of the subsidiaries defaulting on the credit lines is remote.

#### Unrecognised financial instruments

The contracted amount and fair value of financial instruments not recognised on the balance sheet as at 31 May are as follows:

	2010		2009	
	Contracted value RM'000	Fair value RM'000	Contracted value RM'000	Fair value RM'000
Forward exchange to sell US Dollars	11,677	(86)	8,031	353
Forward exchange to buy Euro	403	(28)	-	-

The fair value of the above forward exchange contracts is based on foreign currency contracts translated at spot rates at year end. All the above foreign exchange contracts will mature within a year.

Dear Shareholder,

**Re: IMPLEMENTATION OF ELECTRONIC DIVIDEND PAYMENT (“eDividend”)**

Electronic Dividend Payment or eDividend refers to the payment of cash dividends by a listed issuer to its shareholders by directly crediting the shareholders’ cash dividend entitlements into their respective bank accounts. We are pleased to inform you that all listed issuers who make announcement on or after 1 September 2010 for a books closing date for cash dividend entitlements are required to pay the cash dividend via eDividend to shareholders who have provided their bank account information to Bursa Malaysia Depository Sdn Bhd (“Bursa Depository”).

Shareholders have been able register for eDividend and provide their bank account information to Bursa Depository (through their authorised depository agents/brokers) from 19 April 2010. Registration for eDividend commencing for a period of 1 year from 19 April 2010 until 18 April 2011 will be at no cost to the shareholders. If you register after the 1 year period, an administrative charge will be imposed. Shareholders who have not provided their bank account information will continue to receive your cash dividend entitlement through the existing manner i.e. by cheque.

**Benefits of eDividend**

- Faster access to your cash dividends which would be credited directly into your bank account
- Eliminates the need to go to the bank
- Convenience of one-off registration for entitlement to cash dividend from all listed issuers on Bursa Malaysia Securities Berhad (“Bursa Malaysia”)
- Better account management with the option to consolidate the dividends from all your Central Depository System (“CDS”) accounts into one bank account
- Eliminates the problem of misplaced, lost or expired cheques and unauthorized deposit of dividend cheques.

For those shareholders who have previously opted for direct crediting of dividend entitlement via GIRO Service with the Company, you will still need to register for eDividend.

**Registration for eDividend**

To register for eDividend you are required to provide to Bursa Depository, through your stock broker, your bank account number and other information by completing the prescribed form. This form can be obtained from your stock broker’s office where your CDS account is maintained, or downloaded from Bursa Malaysia’s website: <http://www.bursamalaysia.com>

You need to submit to your stock broker’s office where your CDS account is maintained, the duly completed prescribed form and the following for registration:-

- (a) Individual depositor: Copy of identification documents i.e. NRIC, Passport, Authority Card or other acceptable identification documents. Original documents must be produced for your stock broker’s verification;  
Corporate depositor: Certified true copy of the Certificate of Incorporation / Certificate of Registration;  
and
- (b) Copy of your bank statement / bank savings book / details of your bank account obtained from your banks website that has been certified by your bank / copy of letter from your bank confirming your bank account particulars. For individuals, original documents must be produced for your stock broker’s verification. For corporate entities, a certified true copy is to be submitted.

If the CDS account is held in the name of a nominee, the nominee will register for the eDividend.

If you are not able to be present at your stock broker's office to submit the prescribed form and supporting documents, please ensure that the signing of the prescribed form and the supporting documents have been witnessed by an acceptable witness specified by Bursa Depository. In this regard, an acceptable witness includes an Authorised Officer of your stock broker, a Dealer's Representative, a notary public and an Authorised Officer of the Malaysian Embassy/High Commission.

#### **Notification of eDividend payment after registration**

You are encouraged to provide in the prescribed form to Bursa Depository both your mobile phone number and e-mail address, if any. This is to enable the Company to issue electronic notification to you either via e-mail or SMS, at the discretion of the Company, once the Company has paid the cash dividend out of its account. Please note that if you provide only your mobile phone number, you may only be notified of the cash dividend payment when you receive your dividend warrant or tax certificate.
